

Xiaopeng

AI Automation / n8n / API Workflow Builder · Remote · Email: xiaopeng215@gmail.com

Summary

I build practical automation assets for small teams: n8n workflow plans, API/webhook integrations, AI-assisted review flows, marketplace-ready automation products, and handoff documentation. I prefer starting with a narrow paid trial so the buyer can evaluate quality quickly.

Best Fit

- n8n, Make, Zapier, Airtable, Apify, API/webhook workflow planning.
- AI workflow design with clear human review boundaries, failure paths, retries, and logging.
- Google Sheets/Drive, email, Slack, CRM, lead intake, support triage, ecommerce operations, SEO/GEO audits.
- Documentation-first delivery: implementation checklist, starter skeleton, credential notes, and handoff docs.

Public Proof

- GEO Visibility Audit MCP: <https://github.com/xiaopeng215-sys/geo-visibility-audit-mcp>
- Paid-trial portfolio page: <https://github.com/xiaopeng215-sys/geo-visibility-audit-mcp/blob/main/docs/ai-automation-paid-trial-portfolio.md>
- GEO Visibility Audit Actor: https://apify.com/jumpy_invoice/geo-visibility-audit-intelligence
- SEO Page Audit Actor: https://apify.com/jumpy_invoice/seo-page-audit-intelligence

Prepared Automation Assets

- n8n ecommerce workflow starter for Gemini, Google Drive, Google Sheets, SKU routing, 28-day review, and duplicate alert prevention.
- LinkFinderAI n8n community node scaffold with API credential, four operations, example workflow, and rate-limit handling plan.
- GEO/SEO audit workflows packaged as Apify Actors and MCP/server assets.

Trial Offer

Fixed USD 100 paid trial: review one workflow brief, broken automation, or client scenario; map trigger/data/API/handoff points; identify failure paths and retry/idempotency risks; deliver a concise build plan or starter skeleton within 24-48 hours.
